Empowering the Next Generation Through Financial Literacy

Design a digital experience students want – with the theme of Financial Literacy

For Grades 11–12 students, particularly from underserved communities across Hyderabad.

01

Simple + relatable

Translate financial concepts into everyday decisions students recognize.

02

Interactive + fun

Use games, stories, simulations, challenges, rewards or quizzes.

03

Safe to explore & Integrate

Let students experiment, make mistakes and build confidence without real-world consequences.

START WITH ~1,500 STUDENTS • DESIGN TO SCALE

WHAT TO BUILD

Four learning pillars. Six measures of success.

Vanguard | India

Keep the experience educational, scalable and privacy-conscious.

01

Plan & budget

Needs vs. wants • choices • goals

02

Save & manage

Habits • spending • unexpected needs

03

Understand investing

Risk • time • compounding • diversification

04

Stay financially safe

Protect information • spot suspicious offers

WHAT SUCCESS LOOKS LIKE

Simple	Easy for a beginner
Relatable	Connected to real life
Persona-led	Adapt by age, context and financial maturity
Language-ready	Translation capability for wider accessibility
Game-based	Test learning and evaluate understanding
Intuitive UI	Simple navigation with minimal guidance
NGO-integrated	Enable delivery, rollout and progress support

GUARDRAIL • EDUCATE, DO NOT RECOMMEND INVESTMENTS • SIMULATIONS ARE ASSUMPTIONS, NOT PROMISES
